Library Services

The university’s Robert W. Van Houten Library is located in a facility for study, researching, and browsing. The library collection comprises 160,000 volumes of books, conference proceedings, reports, dissertations and theses. In addition, the library receives approximately 1,000 current technical journal titles in printed format and provides customized electronic access to over 10,000 journals in electronic format. Access to journal literature in engineering, science, management, architecture, and other subject areas is provided by a variety of indexing and abstracting services.
