Information Technology Electives

Code	Title	Credits
Information Technology Core		
Complete information technology/computer and information science courses that provide fundamental knowledge and practice in information technology functions, system development, and software.		36
IT Capstone Project		
Complete a culminating project ¹		3
Specialization Courses		
Select eight courses, focusing on an application area relevant to Information Technology ²		24
General Electives		
Select seven courses to be chosen in consultation with the advisor		21

¹ A culminating project experience that integrates the student's IT and specialization expertise. The IT Program strongly supports and encourages the student to implement this project in collaboration with NJIT industrial partners and/or NJIT's Enterprise Development Centers. In accordance with the need for the IT professional to have highly developed communication skills, the student will present the results of their projects at the completion of the project.
