History

The history faculty at NJIT and Rutgers University-Newark comprise a federated department offering an integrated curriculum and a broad selection of degree programs covering major historical periods and regions. The unique perspective to be gained in historical study as an NJIT student is reflected in offerings such as the undergraduate and graduate program in the history of Technology, Environment and Health/Medicine. In addition to instruction by nationally and internationally recognized scholars, the department offers students outstanding resources and opportunities that include preparation for law-related careers; opportunities for original research and writing, with particular emphasis on the craft of historical writing; internships with the New Jersey Historical Society, the Newark Museum and other cultural institutions; participation in teacher-certification programs; use of the extensive library holdings of the Rutgers University system; and active student organizations on the graduate and undergraduate levels.
