M.S. in Architecture

The Master of Science in Architecture (M.S. Arch.) at NJIT's Hillier College is a post-professional STEM-designated program that consists of 30 credits and may be taken either full- or part-time. The program is designed for graduates from architecture schools or architects that wish to specialize in areas such as Sustainability, Urbanism or Computation. Students considering further study at the doctoral level may benefit by completing an additional 6 credit thesis. Students are required to design their programs in consultation with the graduate advisor and lead faculty member in the area of specialization in Sustainability, Urbanism and/or Computation.

To remain in good academic standing, students must maintain a cumulative GPA of 3.0 in graduate courses.
